

# COMMUNITY RADIO SWINDON

## SMALL SCALE DIGITAL RADIO

### Multiplex Capacity Allocation and Charging Policy

Our mission is to enable people in Swindon and Marlborough to enjoy new radio services, whilst operating sustainably and supporting broadcasters based in our city. Our service covers about 180,000 people around Swindon, Marlborough, Royal Wootton Bassett, Wroughton and Purton

#### C-DSP Capacity

This capacity is available to holders of C-DSP (Community-Digital Service Provider) licences.

Total Services Available	4 @ 36CUs (48kbit/s)
Qualifying Criteria	Hold a valid C-DSP licence for a service located within our coverage area
Price	£240 per year

#### General Capacity

This capacity is available to any broadcaster for audio and/or data services.

Qualifying Criteria	Any DSP licence holder.
Price	£180 per month for 48kbps (36CUs) £120 per month for 32kbps (24CUs) <ul style="list-style-type: none"><li>• Price is for good quality stereo music capacity of 36CUs (48kbit/s, DAB+) or medium quality stereo music capacity of 24CUs (32kbit/s, DAB+)</li><li>• Rates can be applied pro-rata for lower or high numbers of capacity units</li></ul>

#### More Information

Capacity is offered on a first-come, first-served basis.

All services should broadcast in DAB+. Exceptions will only be made where they are well-supported and unavoidable.

A carriage agreement will need to be entered between the parties before a service provider can be carried on the multiplex. Carriage agreements will be for a minimum term of 12 months from the Start Date, with provision to terminate after that period on not less than 3 months written notice.

Short term temporary services are also available.

Fees will be payable monthly in advance and will be subject to annual review.

Service providers will need to obtain all necessary statutory and music royalty licences.

These prices assume you will either push a compatible stream to our multiplexer or allow us to use your existing internet stream as a source. We can quote separately if you would like a dedicated contribution for best quality.

Issued April 2022
